

## AIR COMPRESSORS

# Airfield Air Compressor LSP/N

Airfield air compressor LSP/N is designed for filling dispensers and/or other high-pressure vessels with compressed air.

LSP/N is mounted on a low chassis and fit for towing.

It is suitable for air transport.

## TECHNICAL DATA

### gas type

compressed air, PN-91 / L-01262 standard compliant

„dew point“ at pressure 0,1 MPa  
no more than -55°C

max. discharged air temperature  
+70°C

max. discharged air pressure  
35 MPa

filtering accuracy  
10 µm

capacity (at pressure 35 MPa, +20°C)  
125 Nm<sup>3</sup>/h

### PARAMETERS

dimensions with tow rod (L x W x H)  
5885 mm x 1860 mm x 1600 mm

dimensions without tow rod (L x W x H)  
4000 mm x 1860 mm x 1600 mm

wheel track  
1565 mm

axle track  
3050 mm

weight without accessories  
3275 kg

weight with accessories  
3492 kg
