

TRAINING EQUIPMENT

Simulators for T-72 and PT-91 tanks crew

WCBKT S.A. is an experienced manufacturer of simulators and training equipment for various kinds of weapon system. For many years we have been delivering simulators for T-72 and PT-91 tanks.

BESKID-2M/K training simulator is designed to provide an initial training for the commander, gunner and driver and complex training for the T-72 tank crews without using real combat equipment.

BESKID-2M/Z training simulator is a single station version of BESKID-2M/K simulator designed for T-72 gunners training.

BESKID 2M/PT is designed to provide initial training of PT-91 tank gunners. The simulator can operate in the self-training mode or the training can be supervised by the instructor from the instructor station.
